### SKILLS

- ❖ **HTML5, CSS3, JavaScript, React, Angular, Bootstrap, Tailwind CSS, PHP, Python, Java, C, SQL, Data Structures and Algorithms, Git, Clean Code, Software Development Life Cycle, Debugging, Generative AI tools, Figma, Canva**

### EDUCATION

- ❖ Master of Computer Applications | BGSB University CGPA: 8.9 | (2021)
- ❖ Bachelor of Computer Applications | University of Kashmir CGPA: 8.14 | (2018)

### EXPERIENCE

- ❖ **Front End Developer Intern | Rehbar Post, Remote** (Mar 2025 - May 2025)  
Built a high-performance shipping dashboard using React, TypeScript, and Tailwind CSS, integrating APIs and responsive UI to boost load speed by 40% and task efficiency by 30%.
- ❖ **Software Engineer | Kaizen Systems, Chandigarh** (Jun 2023 - Jul 2024)  
Designed and developed responsive websites using HTML5, CSS3, JavaScript, Bootstrap, and PHP, while also training students in Web Development, Python, Data Science, and AI/ML, ensuring timely, client-aligned project delivery.
- ❖ **Instructor | Hatsgold, Jammu and Kashmir** (Jun 2022 - Jun 2023)  
Founded and led Hatsgold to train students in foundational computer skills and web development through hands-on projects using HTML, CSS, and JavaScript.
- ❖ **Programmer Trainee | Software Research, Remote** (Oct 2021 - Jan 2022)  
Developed a full-stack legal web app using HTML, CSS, JavaScript, Java, JSP, Dojo, and PostgreSQL, boosting client productivity by 90% and improving development efficiency by 15%.

### PROJECTS

- ❖ **Bookmark Manager – React-based Bookmark Organizing Tool** [Live Link](#)  
A feature-rich web app to save, edit, delete, search, and filter bookmarks with support for dark mode and persistent storage using localStorage – React, TypeScript, Bootstrap, HTML, CSS
- ❖ **Trackify – Minimal Daily Progress Tracker** [Live Link](#)  
A clean and intuitive progress tracking app for 21/100-day challenges with interactive checkboxes, start-date selection, and local data storage for user consistency – JavaScript, HTML5, Tailwind CSS.
- ❖ **RTKQuotes – Quotes App with RTK Query Integration** [GitHub](#)  
A lightweight React app that fetches and displays inspirational quotes using Redux Toolkit Query, showcasing modern state management and API integration – React, TypeScript, RTK Query, Bootstrap.
