Experience

Tata Consultancy Services <i>UX UI Designer</i>	December 2022 – Current <i>Mumbai, Maharashtra</i>
<ul style="list-style-type: none">• Ultimatix Assistant Chat bot: Designed user-centric wireframes, prototypes, and mockups, collaborated with cross-functional teams for integration, and contributed to promotional strategies to enhance user engagement.• Unilever Diagnostics Tool: Led design conceptualization, developed wireframes and prototypes based on client requirements, and ensured effective communication to meet design goals.• Tata Power EV-EZ Charge App: Assisted senior designers in translating insights into wireframes, developed user notification messages, and maintained app and web-based car models.• Key Skills: Demonstrated expertise in design thinking, collaboration, communication, and delivering intuitive and engaging digital solutions.	
Tata Consultancy Services <i>Datapower Developer</i>	January 2021 – September 2022 <i>Mumbai, Maharashtra</i>
<ul style="list-style-type: none">• Worked with IBM DataPower Gateway (IDG) to accelerate, secure, and integrate XML-based applications.• Created processing policies and configured rules and actions using DataPower services, including MPGW, XML Firewall, and Web Service Proxy.• Configured HTTP/HTTPS clients and back-end protocol communication to integrate services with DataPower.• Implemented SSL (Secure Sockets Layer) and AAA (Authentication, Authorization, and Auditing) for enhanced security.	

Projects

Ultimatix Assistant Chat bot UX UI Designer	May 2024 – Current
<ul style="list-style-type: none">• Successfully integrated the chat bot in the SPEED Appraisal portal,also designed nudges and notification for bot.• Worked on the revamp of the Ultimatix Assistant which includes redesigning of the logo and the entire User Interface.• Collaborated closely with cross-functional platform teams to seamlessly integrate the chat bot into diverse systems.• Additionally, I contributed to the promotion and marketing strategies of the chat bot, driving its adoption and user engagement.• This role honed my skills in design thinking, collaboration, and communication, ensuring the successful deployment of a user-friendly digital assistant.	

Unilever Diagnostics Tool | *UX UI Designer*

November 2023 – May 2024

- I spearheaded the Diagnostics Tool project for a leading personal and household care brand.
- Responsibilities included conceptualizing and visualizing solutions based on requirements, and developing wireframes, mock ups, and prototypes.
- Engaged with the client to gather their design requirements.

Tata Power EV-EZ Charge App | *Junior UX UI Designer*

December 2022 – November 2023

- As a Junior UX/UI Designer at Tata Power EZ Charge App, collaborated with senior designers to gather insights and translate them into wireframes.
- Developed notification messages for app users, including reminders and other relevant information. Additionally, maintained and updated car models within both the app and web application.
