## PROFILE

---

I'm Talib Shaikh, a UI/UX designer who turns curiosity into creativity. I craft intuitive websites, apps, and dashboards that are both visually appealing and user-focused. Every project is a story, and I'm here to tell it beautifully.

## EDUCATION

---

### B.Sc. Information Technology

University Of Mumbai

2020 – 2023  
Mumbai, India

### Higher Secondary School Certificate

Vidya Vikas Universal College

2019 – 2020  
Mumbai, India

### Secondary School Certificate

NTCC High School

2017 – 2018  
Mumbai, India

## SKILLS

---

### User-Centered Design

I design with empathy, focusing on understanding users' needs and challenges to create intuitive, seamless, and engaging experiences.

### Empathic Designing

Understanding users is key to my process. I step into their shoes to design solutions that solve problems and create user-centric experiences.

### Usability Testing

Usability testing let me step into the user's shoes, uncovering hidden insights to craft designs that truly work and feel effortless.

### Design Thinking

I focus on understanding user needs, exploring ideas, and creating solutions that solve real problems & designs that truly work for people.

### Visual Design

Building engaging and meaningful visuals not only look stunning but tell stories, inspire emotions, and enhance user experiences.

### Wireframing & Prototyping

It help me turn design concepts into interactive, testable, and user-friendly layouts, ensuring seamless user experiences before finalizing it.

## PROJECTS

---

### Pricing Sections 🔗

When I set out to design this pricing section, my goal wasn't just to showcase numbers – it was about creating an experience that makes choosing the right plan as easy and clear as possible. I focused on balancing the layout with intuitive flow, ensuring that each option felt like a simple step towards a better solution. It's not just about pricing – it's about delivering value in a way that connects with the user instantly.

### ArtSpace 🔗

Picture a space where your work speaks louder than words. I designed this hero section to be the gateway for creators to showcase their journey effortlessly. It's not just about putting your projects together; it's about weaving a story that captures attention, sparks curiosity, and leaves a lasting impression. Like a perfectly tailored suit, this design wraps your portfolio in a seamless, polished experience that feels just right for the audience it meets.

### CryptAura 🔗

Visualize a world where investing in cryptocurrency is as easy as buying your favorite app. That's exactly what I set out to create with this hero section. I designed this hero section to make crypto investment simple and approachable for everyone. With clean visuals and an intuitive layout, it breaks down the complexity of digital currency, helping users feel confident as they begin their investment journey.

PROFESSIONAL EXPERIENCE

UI/UX Designer

Anosh Softwares

04/2025 – 07/2025  
Mumbai, India

Redesigned their desktop-based Jewellery Management Software along with the tablet version, supporting both light and dark modes for better accessibility. Also led the UI/UX design of the company’s official website to improve usability and brand consistency.
