Summary

I'm a React Native Developer with 3+ years of experience building cross-platform mobile applications, integrating scalable backends with Node.js, and developing responsive web interfaces using React.js and Next.js. Skilled in implementing payment gateways, push notifications, and real-time chat systems. Experienced in building cross-platform desktop applications using Electron.js and React Native.

Education

UNIVERSITY MAHARAJA COLLEGE, JAIPUR

Bachelor of Science (B.Sc), Graduated 2020 — 67%

UNIQUE PUBLIC SR. SEC. SCHOOL, SIKAR

Senior Secondary (Science), 2017 — 80%

Skills

- React Native
- Javascript
- Node Js
- Github
- Next Js
- REST APIs
- Expo
- React Js
- IOS (Swift)
- HTML,Css
- TypeScript
- Redux
- Agile , Jira
- SQLite

Work Experience

Dev Technosys Pvt. Ltd - Full Stack Developer (Feb 2022-Now)

Worked as a Full Stack Developer, leading a development team and contributing to both mobile and web applications with end-to-end solutions. Responsibilities included developing front-end interfaces, building scalable back-end services using Node.js and integrating complex features such as payment gateways and Google Maps.

- Led the implementation and testing of large-scale, modular applications.
- Mentored junior developers, fostering team growth and maintaining high coding standards.

Datacube SoftTech Pvt. Ltd — React Native Developer (Feb 2022 – July 2022)

Gained valuable experience working on key mobile app features such as push notifications, social login integrations, and biometric authentication. Developed a strong foundation in modern mobile technologies while actively learning and contributing to project tasks.

- Implemented social logins and biometric authentication for secure, easy access.
- Quickly adapted to new technologies and contributed to the development team's goals.

Projects

Quizophy - Live Quiz Competition App (React Native)

Android - <https://quizophy-quiz-app.en.softonic.com/android>

- Implemented Redux architecture
- Developed real-time features for live quiz functionality

Birlingo - Language Learning App (React Native)

Android - https://play.google.com/store/apps/details?id=com.birlingo&hl=en_IN

IOS - <https://apps.apple.com/us/app/birlingo-sprachkurse/id1533513433>

- This project is centered around learning various languages.
- worked on implementing the functionality and Ui Design

Staff Renter - Job Searching App (React Native)(Not Live Yet)

Web Panel - <https://www.staffrenter.com/en/>

- Integrated Google Maps with support for real-time directions and geolocation features.
- Built a chat system for real-time messaging between users.
- Implemented offline data management using SQLite, ensuring app functionality and data access even without an internet connection.

Reloaded - Astorlogy App (React Native) (Live Soon)

- Implemented In-App Purchases (IAP) to enable monetization of premium astrology features.
- Integrated Agora SDK for real-time audio and video communication (e.g., live astrology sessions or consultations).
- Managed core astrology-related functionalities, including data handling and user customization.

Coding Panda - Learning Platform (React Js with Node js)

- Worked on both frontend and backend for a modular programming learning platform
- Implemented interactive modules for multiple programming languages and problem-solving
- Developed features to enhance coding skills and track user progress

Webiste - <https://codingpandas.in/>

Admin Panel - <https://admin.codingpandas.in/>

School ERP - School Management ERP (Next Js with Node js)

- Developed a comprehensive school ERP system managing students, fees, classrooms, and sections
- Implemented modules covering all essential school operations and administration

Website - <https://edugits.thundergits.com/>

Key Achievements

- Successfully contributed to 15+ mobile app development projects and 5+ web development projects.
- Published multiple apps on Play Store and App Store with positive user feedback.
- Recognized for leading teams and delivering high-quality, scalable solutions.
