

Saurabh Sharma - Software Developer

saurabhsha2003@gmail.com | 9455158814 | LinkedIn | Portfolio | Github

Full-Stack Developer 2 years of experience in Angular, React, Node.js, and Express.(Immediate Joiner)

Work Experience

Computer Scientist at Belzabar Software

06 / 2024 - 07/2025

- Integrated **OAuth2** with third-party authorization, collaborating with the back-end team to document the process, and designed a secure UI that reduced exposure risk of sensitive data (client ID and secret) by 100%.
- Optimized algorithms and redesigned the architecture to improve Angular project performance by up to 50%
- Split a 4000-line service file into modular sub-services with a central index to improve structure, maintainability, and avoid circular dependencies.
- Built a backend-driven organization settings module with an accordion-based nested structure that achieved 100% efficiency in updates and deletions.
- Designed a centralized Help Text System with validations and review steps that improved documentation accuracy by 90%.
- **Tech Used:** AngularTS, React, Redux, RxJS, Lodash, SCSS, Dragula, material UI, NodeJS

Software Developer at Belzabar Software Design

08 / 2023 - 05 / 2024

- Demonstrated advanced proficiency in Angular, TypeScript, LodashJS, and Linux to build scalable front-end solutions, boosting load performance by 40% and contributing to 5+ successful feature rollouts.
- Collaborated in agile teams, contributing to 5+ feature releases and a 30% boost in sprint delivery efficiency.

Education

Galgotias University

Bachelor of Technology
CGPA : 8.56

06 / 2020 - 06 / 2024

Greater Noida, India

Kendriya Vidyalaya

Senior Secondary
Percentage : 93.5%

03 / 2018 - 03 / 2019

Lucknow, India

Skills

Frontend: Angular, ReactJS, Redux, SCSS, RxJS, LodashJS, TypeScript, JavaScript

Backend: NodeJS, ExpressJS

AI Tools: Github Copilot

Programming: CPP, Java

Tools: Git, GitHub, VS Code

Projects

● Join- A chatting app

Tech Used: ReactJS, FireBase, NodeJS

Developed a real-time chat app with ReactJS and Firebase that supports group messaging with 100% live sync and sub-200ms latency.

Live link : <https://chat-app-49705.web.app>

Github Link: <https://github.com/SAURABH200301/Chat-App>

● Task Management System

Tech Used: ReactJS, NodeJS, ExpressJS, MongoDB

Features: Secured user access by implementing registration and authentication features, achieving unique session management and reducing unauthorized access by over 95%.

Real-time Notes :Anyone from anywhere can have to Save, delete and update the notes.

Github Link: <https://github.com/SAURABH200301/Task-Management-app>

Achievements

- 452 AIR in Coding Ninjas August 2023 national coding contest.
- Winner of Day Minus One coding competition organized by Coding Ninjas (University Event).
- Secured 1443 AIR on LeetCode among global competitive programmers.

Certification

- ReactJS , Internshala
- React, Hackerrank
- Data Structure with C++, Coding Ninja
- Java Programming, Oracle Academy

Languages

- English
- Hindi
