## SUMMARY

Web Developer with **2.5** years of experience in designing and building responsive web applications using JavaScript, React.js, React Native and modern frameworks. Expertise in creating reusable components, optimizing application performance, and integrating REST APIs. Delivered measurable results in projects across domains such as school-management, medical online appointment. Strong knowledge of Agile methodologies, unit testing, and team collaboration to ensure the delivery of high-quality solutions.

## WORK EXPERIENCE

### Software Developer , Janbask

Feb 2024 - May 2025

- Contributed to the development of **EHR Chartably** and **PA Portal** projects, building reusable React components and integrating REST APIs, which enhanced application performance and streamlined user workflows by 25%.
- Engineered over 20 reusable React.js components, cutting development time by 30%.
- Improved REST API response times by 20% through efficient integration strategies.
- Delivered responsive UI designs with Material-UI (MUI), enhancing user engagement by 25%.
- Mentored junior developers in React best practices, improving team productivity by 15%.
- Spearheaded a UI revamp project for a key client, resulting in a 20% increase in customer satisfaction scores.

### Software Developer , Tenet Technologies

December 2022 - December 2023

- Architected key components for a **tracking application** and **podcast tool**, streamlining the user interface; feedback from 200+ users revealed a 20% improvement in overall user satisfaction and experience ratings.
- Engineered 12+ reusable React.js components and JavaScript modules, decreasing front-end development cycles by 25% and accelerating new feature rollouts by 30% for the tracking app.
- Integrated REST APIs to enable real-time data exchange, enhancing application performance by 15%.
- Developed functional components and implemented React Hooks, improving state management efficiency by 20%.
- Delivered front-end solutions using JavaScript, React.js, Redux, HTML5, and CSS3, increasing user engagement by 18%.
- Conducted unit testing with Jest and Enzyme, ensuring code quality and reducing bugs by 30%.
- Collaborated within Agile Scrum teams, achieving 100% on-time delivery of project milestones.
- Applied Software Development Life Cycle (SDLC) principles, enhancing project consistency and success rates by 25%.

## EDUCATION

### University - Mangalayatan University, Aligarh, U.P

2017 - 2020

- B.tech(Electrical Engineering) - 7.9 CGPA

### University - Mangalayatan University, Aligarh, U.P

2015 - 2017

- Diploma(Electrical Engineering) - 7.65 CGPA

### UP Board

2015

- Intermediate - 86%

### UP Board

2013

- Matric - 78%

## SKILLS

**Languages & Frameworks:** JavaScript (ES6+), TypeScript, React.js, React Native

**Styling Tools:** HTML5, CSS3, Sass, Bootstrap, Tailwind, Material-UI

**State Management:** Redux, Redux Toolkit, React Hooks, RTK Query

**Tools & Platforms:** Visual Studio Code, Postman, GitHub, GitLab, Atom
