National High School

Karnataka Secondary Education Examination

2016

Chilur

🧠 SKILLS

- Languages: JavaScript, HTML5, CSS3
- Frameworks & Libraries: React.js, Redux, Redux-Saga, Bootstrap, Video.js
- Tools: VS Code, Postman, GitHub, Figma, JIRA, Node.js
- Other Skills: WebSockets, API Integration, Responsive Design, Performance Optimization

📁 PROJECTS

CMS (Content Management System)

09/2023 – present

- Built a responsive CMS for an OTT platform using React.js and Redux-Saga.
- Implemented real-time asset view tracking with WebSockets.
- Maintained and optimized frontend codebase for scalability.
- Took full ownership of the frontend codebase — building, maintaining, and enhancing.

Soapbox (OTT Entertainment Platform)

02/2024

- Developed a modern OTT platform for web users with a strong focus on React front-end
- Utilized Redux Saga for efficient and scalable state management.
- Integrated Video.js for advanced video playback customization and seamless streaming.
- Added WebSocket support for real-time data updates and user engagement features.
- Implemented secure login functionality with encryption/decryption of sensitive user data and robust session management.
- Implemented advanced search capabilities and integrated real-time notifications for interactive user updates.

- Applied responsive design principles to ensure a seamless experience across various screen sizes and devices.
- Conducted front-end performance optimizations, resulting in faster load times and improved application efficiency.

File Transfer Application For Nuvsena

11/2024 – 02/2025

- Built a cross-platform file transfer system using React.js and rsync for Linux/macOS.
- Created a user-friendly UI and enhanced transfer reliability and speed.

CERTIFICATES

- web Development with JS & React.js from ShapeAi
- Full Stack Developer from Jspiders
- React JS from HackerRank
