

ManiRaj R

Java Full Stack Developer

9944782676 | manirajdev007@gmail.com | [Linkedin](#) | Little Mount, Chennai - 600015

OBJECTIVES

Software Engineer with around 2.5 years of experience developing scalable applications using Core Java and Spring Boot. Strong background in designing RESTful APIs and working within microservices architecture. Proficient in Java 8 for writing clean, maintainable code. Experienced in front-end technologies including HTML, CSS, JavaScript, JSP, Servlets, as well as Angular and Spring MVC for building dynamic web interfaces. Skilled in API testing and documentation using Postman and database design, and secure implementations.

Experiences

QnQ Healthcare Pvt ltd | Aug 2023 - Present

- A growing healthcare technology company providing ERP, POS, and CRM solutions tailored for the healthcare industry.
- Designed and developed backend solutions for healthcare systems with emphasis on scalability and performance
- Collaborated with cross-functional teams to deliver complete, end-to-end application modules. Ensured system reliability through performance optimization and efficient database design
- Implemented secure APIs and role-based access controls to safeguard sensitive healthcare data. Provided ongoing support and performed regular maintenance to enhance application stability.

Project : ERP (Enterprise Resources Planning)

Technologies : Java, Spring Boot, Spring MVC, MySQL, jQuery | **Tools :** Postman, GIT, Jira

Warehouse Module

- Developed branch billing /outward logistics modules; built batch number-wise item detail displays covering item code, purchase rate, GST/IGST, quantity , UOM, packing size, and MRP using Spring Boot microservices, Spring MVC, and SQL.
- Developed Purchase Request and Approval modules with REST APIs, supporting manual, SCM, CSCO, and CEO approval workflows.

Finance Module

- Implemented a warehouse sales report module for indirect sales and doctor sales, displaying invoice details, payment information, and date-wise sales reports organized by retiring order.

HR Module

- Developed an Expenses Planner feature for all departments, enabling cash investment tracking, editing, viewing, and report generation using jQuery and Spring MVC; optimized datasets for better performance.
- Developed an employee category and designation module with CRUD operations and SQL, integrated into active employee modules for smooth data handling and optimization.

Project : Point Of Sale | MedisureCRM | Ticketing Tool

Technologies : Java, Spring Boot, Spring MVC, MySQL, Angular, jQuery

- Implemented a Point of Sales medicine request module with status tracking, and integrated Angular APIs with Spring Boot to securely retrieve and manipulate ERP data in the POS system.
- Developed the MedisureCRM stock report to display current stock for every item with stock movement tracking; integrated ERP data into MedisureCRM using REST APIs and secured it with Spring Security, optimizing datasets for efficient retrieval and performance.
- Implemented an ITSM dashboard within the ticketing tool to track all support requests, including recent tickets, in-progress/assigned tickets, and completed tickets; used Hibernate to manage real-time data updates for every ticket movement.

HCL Technologies | Software Engineer | Dec 2021 -May 2023

Project : IClear | Deutsche Bank

Technologies : Java, Spring Boot, Angular , MySQL | Tools : Bitbucket, Jira, Postman

- Completed a 4-month Full Stack Java training and transitioned into hands-on development and support.
- Worked on a banking challan module to securely capture and process challan images and data, implementing Spring Security for secure data retrieval and transmission between banks; also developed Angular-based UI components for intuitive data entry and review.
- Prepared technical documentation for compliance, supported production by resolving issues quickly, and collaborated on front-end and back-end integration.

SKILLS

Programming Language : Java 8, 11
Frameworks : Spring Boot, Angular 17, jQuery
Web Development : HTML, CSS, JavaScript
Databases : MySQL, Oracle
Tools : Eclipse, STS, VS code, Git, Agile / Jira

EDUCATION

Nandha College of Technology	Erode, TamilNadu
Bachelor's of Information Technology - (7.53/10)	2017 - 2021
Government Hr.Secondary School	Tirupur, TamilNadu
Secondary School Of Certificate - (78%)	2016 - 2017
Government Hr.Secondary School	Tirupur, TamilNadu
Secondary School Of Certificate - (79%)	2014 - 2015
