## COURSEWORK

### UNDERGRADUATE

Database Management System  
Object-Oriented Programming  
Data Structure and Algorithms  
Web Development

## CERTIFICATES

- Infosys Certified Frontend Developer
- Infosys Certified React Developer
- Certificate for Complete Web Developer Bootcamp - Udemy
- Infosys Certified SQL Associate
- Styling with Responsive Design - Coursera

## EXPERIENCE

### INFOSYS | SPECIALIST PROGRAMMER

Aug 2023 - Present

- Engineered 400+ scalable, responsive, client-facing email templates for Microsoft services, boosting communication efficiency by 30% and ensuring seamless consistency across devices and clients.
- Resolved 15+ bugs in the editor, slashing development time by 75%, elevating product quality, and driving customer satisfaction.
- Developed a browser extension to dynamically modify content blocks, enabling direct integration within reusable email templates.
- Built an AI-powered code review agent to perform sanity checks, ensuring alignment with established development guidelines and standards.
- Acted as Subject-Matter Expert (SME) for template lifecycle, processing 30+ Azure DevOps requests weekly, streamlining workflows.
- Enhanced documentation, led code reviews, and mentored new members, fostering a culture of collaboration and continuous improvement.

### PROTOHUBS | REACT DEVELOPER

Jan 2023 - Mar 2023

- Crafted dynamic web pages in React.js, seamlessly translating design concepts into interactive and responsive user interfaces.
- Accelerated website development by crafting 15+ ReactJS components, streamlining code reusability by 60% and lowering development time by 35%.

### OQPAI | FRONTEND DEVELOPER

Feb 2022 - Mar 2022

- Delivered fully functional career and contact pages within a tight 3-Day deadline, ensuring seamless user experience
- Revamped homepage layout with a slider, ensuring flawless responsiveness and precise element alignment.
- Completed the front end for 'MyCredible' in 7-8 days, exceeding the 10-day deadline by 20%, demonstrating efficiency & dedication to timelines.

## PROJECTS

### TINYTALES-AI | NEXT.JS, SHADCN, DRIZZLE, GEMINI, EDEN AI

- Developed an AI-powered storytelling platform integrating Google Gemini for kids' story generation and Eden AI for real-time image creation, enhancing engagement with a 5-chapter flipbook UI.
- Tailored a Neon PostgreSQL database with Drizzle for JSON-structured story content storage, reducing data fetch times by 40%.
- Crafted a responsive, interactive interface using Shadcn and react-pageflip for seamless page transitions.
- [Live Demo](#)

### ATTENDIFY | NEXTJS, TAILWIND, DRIZZLE, SHADCN, KINDE

- A full-stack student attendance management, which utilizes Vercel's database for efficient data storage and Kinde for authentication.
- Implemented features for teachers to manage student records by adding new students, deleting existing ones, and marking attendance (present/absent) using shadcn for various components.
- [Live Demo](#)
