## Profile Summary

Experienced Software Developer with 3.5 years in IT, focused on building scalable solutions and optimizing system performance. Strong collaborator with a track record of delivering impactful improvements. Seeking a challenging role to contribute and grow.

## Technical Skills

**Languages :** JavaScript, Golang, C++, Core Java

**Databases :** MongoDB, MariaDB, MySQL, Redis, Elasticsearch

**Frameworks/ Libraries :** NodeJs, ExpressJs, ReactJs, Mongoose

**Testing :** Unit Testing, UAT, Manual testing

**DevOps and Tools :** Git, Microsoft Azure, Kubernetes, VS Code and Postman

## Experience

### Jio Platforms Limited

Oct 2022 – Present

Mumbai, India

*Software Developer*

- Leading the project team and ensuring timely backend deliveries.
- Coordinated workflow optimization and developed complex Node.js APIs, ensuring seamless integration with backend databases.
- Improved frontend functionality by resolving UI bugs and enhancing user experience.

### Infosys Private Limited

Sept 2021 – Oct 2022

Indore, India

*Test Engineer*

- Collaborated in a testing team for a US-based client, specializing in User Acceptance Testing (UAT).
- Managed concurrent projects, met deadlines, and ensured successful project deliveries.

## Projects

### JIOCX – Scalable Billing & Reporting System – *NodeJS, Golang, MariaDB, ReactJS*

- Built a billing platform handling 2M+ records/month with optimized APIs and hybrid data storage.
- Improved performance using Redis caching and Elasticsearch-based search.
- Developed reusable frontend components and ensured secure access with JWT and RBAC.
- Deployed services via CI/CD in collaboration with cross-functional teams.

### JCRMS – Jio Customer Relationship Management System – *Node.js, Express, MongoDB*

- Built scalable backend systems supporting modules like lead tracking, sales goals, user onboarding, and account management.
- Developed RESTful APIs and microservices to manage leads, goals, accounts, and contacts.
- Worked with MongoDB (Mongoose) and MySQL (Sequelize) for product, pricing, and user data.
- Implemented multi-stage product approval workflows aligned with business rules.

### JioFace – Face Recognition & Attendance System – *Node.js, Express.js, MongoDB, SQL*

- Developed core modules including employee attendance, blacklisting, site configuration, and admin panel.
- Built complex backend APIs and integrated them with frontend workflows for a seamless user experience.
- Used MongoDB and Redis for data management and caching; integrated Elasticsearch for fast search operations.
- Deployed microservices using Kubernetes for enhanced scalability and maintainability.

### SQA Mobile App – Retirement Services Platform – *UAT Tester*

- Conducted user acceptance testing (UAT) for retirement service features in a mobile application.
- Collaborated with cross-functional teams and received client recognition for consistent, high-quality deliverables.

## Certifications

Server-side Development with NodeJS, Express, and MongoDB

Oct 2022 – Nov 2023

Programming Basics - IIT Bombay X

July 2019 – Dec 2019

## Education

### Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV)

Aug 2017 – July 2021

Bachelor of technology in Computer Science

Indore
