

## PROFILE SUMMARY

- B.Tech graduate with 1.4+ years of hands-on experience as a **Java Full Stack Developer** at **Secular Software Pvt. Ltd.**
- Proficient in **Core Java**, **Spring Boot**, and **RESTful Web Services** for building scalable and secure backend applications.
- Experienced in developing **Microservices-based architectures** with efficient service communication and data handling.
- Good knowledge of **Spring MVC**, **Spring Data JPA**, and **Spring Security** with practical implementation of **JWT-based authentication**.
- Worked with **MySQL** for database design, management, and integration.
- Developed responsive user interfaces using **Angular**, **HTML5**, **CSS3**, **JavaScript**, and **TypeScript**.
- Used **JUnit** for unit testing and maintaining code quality.
- Proficient with **Git** and **GitHub** for version control and collaborative development.
- Currently expanding skill set by learning **Docker** to gain expertise in containerization and modern DevOps practices.
- Comfortable working in **Agile environments**, participating in sprints, code reviews, and continuous integration.
- Strong problem-solving skills, a quick learner, and a proactive team player with a focus on clean, maintainable code.

## TECHNICAL SKILLS

- **Languages & Web Technologies:** Java (Java 8), Multithreading, HTML5, CSS3, JavaScript, TypeScript
- **Frameworks & Libraries:** Spring Boot, Spring MVC, Spring Security, Spring Data JPA, JDBC, Angular
- **API & Architecture:** RESTful Web Services, Microservices, JWT, OAuth 2.0
- **Databases:** MySQL
- **Tools & IDEs:** Eclipse, STS, IntelliJ IDEA, VS Code, Postman, Swagger
- **Version Control & Devops:** Git, GitHub, Docker
- **Testing & QA:** JUnit, Mockito.
- **Methodologies:** Agile (Scrum), SDLC.
- **Application Server & OS:** Apache Tomcat 8, Windows 7/8/10

## PROJECT DETAILS

### Project: Unified Home Loan Service

**Technologies:** Java, Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Microservices, JDBC, HTML5, CSS3, TypeScript, Angular, MySQL

**Tools:** STS, VS Code, Postman, Swagger, JUnit, Git, GitHub

**Server:** Apache Tomcat 8.

### Description:

Developed a secure and modular Home Loan Management System to automate the loan process, including application, eligibility checking, EMI calculation, document handling, and real-time status tracking. The project aimed to improve operational efficiency and user experience.

### Key Responsibilities:

- Developed RESTful APIs using **Spring Boot** for core loan functionalities.
- Integrated **MySQL** for managing customer and loan data.
- Implemented **Spring Security** with JWT for secure authentication.
- Applied business logic for **EMI calculation**, eligibility checks, and document verification.

- Created responsive UI using **Angular** and managed form validations.
- Used **Postman** and **Swagger** for API testing and documentation.
- Performed unit testing with **JUnit** and participated in debugging and code reviews.
- Used **Git/GitHub** for version control and collaborative development.

## ADDITIONAL SKILLS

- **Soft Skills:** Strong communication, Problem-solving, Team collaboration, Time management, Quick learner
- **Tools:** **Microsoft Office, Advanced Excel** (Pivot Tables, VLOOKUP, Data Filtering, Charts)

## EDUCATION

- **B.Tech** from **Sandip University** in Aug 2024 with **7.37 CGPA**.
- **Diploma** from **MSBTE** in April 2021 with **83%**.
- **10th** from **SSC Board Maharashtra** in April 2018 with **77%**.

## PERSONAL DETAILS

**DOB:** 26<sup>th</sup> Sep 2002.

**Gender:** Male.

**Languages known:** English, Hindi, Marathi.
