## Profile Summary

Innovative UI/UX Designer with 2.5 years of experience in crafting seamless and user-centered digital experiences. Skilled in designing intuitive interfaces for Android & Web platforms. Expertise in user research, marketing design, and delivering solutions that align with user needs and business goals. Passionate about tackling new challenges in dynamic environments to create impactful and meaningful products.

## Experience

### UI/UX Designer, TredPlus

Ahmedabad, Gujarat | March 2025 - Present

- Improved the user experience for key features like onboarding, invoice uploads, and tracking payments – which helped more users stay on the app.
- Handled everything from understanding what users needed to designing and testing the final screens, so the app felt smooth and easy to use.
- Set up a design system in Figma so all the screens and components looked consistent, making it faster for developers to build.
- Designed clean, simple dashboards that made financial info easy to understand and helped build user trust during important steps like KYC and payments.

### UI/UX Designer, NewGenAlpha

Bangalore, Karnataka | July 2024 - March 2025

- As a UI/UX designer in an AI based startup, I collaborated with developers, embracing an agile approach, to create our website.
- Enhanced user flows and interactions to align with user needs and business objectives.
- Designed an intuitive platform that highlights AI's capabilities in delivering tailored solutions.
- Conducted usability testing to ensure seamless experiences for end-users.

### Freelance UI/UX

June 2023 - Present

- Delivered 10+ UI/UX projects for global clients across B2B and B2C domains, e-commerce, and SaaS platforms.
- Collaborated with cross-functional teams to ensure timely delivery, seamless workflows, and high client satisfaction.
- Created wireframes and clickable prototypes to show design ideas and get feedback from clients or team members.
- Designed clean, user-friendly screens for web and mobile, making sure they work well and look good on all devices.

### UI/UX Designer, Intelli Edtech

Gurugram, Haryana | March 2024 - July 2024 (Project Based)

- Ensuring designs work well across various devices.
- Collaborated closely with development and marketing teams to create visually appealing web interfaces, improving user experience.
- Optimized design workflows by integrating tools and techniques for faster iteration cycles.
- Conducted A/B testing to validate design choices and improve user engagement.

### UI/UX Designer, Acadmania

Raipur, Chhattisgarh | January 2023 - March 2024

- Wireframing & Prototyping: Developed wireframes and prototypes using Figma.

- User Research: Conducted usability testing and refined designs based on feedback.
  - Responsive Design: Optimized designs for mobile, tablet, and desktop experiences.
- 

## Education

**PGD in Cloud Technology, RTM Nagpur University,**

Nagpur, India | 2022

- CGPA: 9.82
- 

## Achievements

- Won Best Employee of the Month at NewGenAlpha for 3 months in a row for great work and strong performance.
  - Awarded 'Best Employee of the Year' for exceptional performance at Acadmania.
