PROFILE

I am currently working as a Full Stack Developer (Programmer Analyst) with hands-on experience in both front-end and back-end development. I specialize in building complete web applications using technologies such as HTML5, CSS3, JavaScript, Angular, .NET, and Basic MySQL. I also have experience in API development, Agile methodologies, and performance optimization.

I enjoy solving real-world problems, delivering scalable, user-friendly solutions, and continuously improving as a developer. I am now looking for opportunities where I can contribute

WORK EXPERIENCE

- **Kale Logistics Solutions** JULY 2022 - PRESENT
Programmer Analyst
 - Developed new features and modules as per business requirements using Angular (frontend) and .NET Core (backend).
 - Worked on both frontend and backend development using technologies like HTML5, CSS3, JavaScript, Angular, and .NET.
 - Fixed critical bugs to ensure application stability and improve performance.
 - Implemented new features and changes as per client requirements.
 - Maintained clean, scalable code and participated in code reviews and team discussions.
 - Worked in an Agile team environment, participating in daily stand-ups, sprint planning, and retrospective meetings.
 - Worked with a team using Git and followed Agile development methods.
 - Utilized GitHub Copilot to assist in optimizing SQL queries, reducing execution time and improving database performance.
