ABOUT ME

Frontend Developer with 3+ years of experience building high-performance, accessible, and visually engaging web applications. Skilled in HTML5, CSS3, JavaScript (ES6+), and React.js, with a strong focus on responsive design, performance optimization, and clean coding practices. Adept at transforming UI/UX wireframes into fully functional, cross-browser interfaces and collaborating across teams to deliver seamless user experiences.

SKILLS

Frontend - HTML5, CSS3, JavaScript (ES6+), React.js

Frameworks/Libraries - Bootstrap, Tailwind CSS, SCSS

State Management - Redux Toolkit, Context API

Version Control - Git, GitHub

Cloud Computing – AWS S3

Backend- Node JS, Mongodb

EDUCATION

Bachelor of Science in IT Management
Bhadrak Autonomous College

06/2016 – 03/2019
Bhadrak, Odisha

Bachelor of Science
NSMCity College

06/2014 – 05/2016
Cuttack, Odisha

PROFESSIONAL EXPERIENCE

ExcelR Edtech Private Limited

Frontend Developer

09/2022 – present

Bangalore, Karnataka

- Designed and maintained responsive, cross-browser compatible, and accessible web applications using HTML, CSS, JavaScript, and React.js.
- Implemented efficient state management using Redux Toolkit, React-Redux, and Context API, improving UI consistency across modules.

- Optimized web performance by 30% through code splitting, lazy loading, and asset minification, enhancing user experience.
- Developed and improved SEO-friendly landing pages, contributing to a 20% increase in organic traffic and lead conversions.
- Integrated third-party APIs, analytics tools, and WebEngage to boost marketing automation and user tracking.
- Collaborated with UI/UX designers, backend teams, and marketing stakeholders to translate requirements into functional interfaces.
- Participated in daily scrums, sprint planning, and code reviews, ensuring code quality and team alignment with agile practices.
- Managed version control using Git and GitHub, supporting seamless team collaboration and feature branching workflows.
- Contributed to testing initiatives using Jest, reducing UI bugs and increasing customer retention.
- Set up and maintained a CI/CD pipeline using GitHub Actions, reducing manual deployment efforts and improving release cycles by 40%.

PROJECTS

Pixxel – AI Image Editor Web App	05/2025 – Present
<i>Tech Stack: Next.js, Tailwind CSS, Fabric.js, Clerk, Unsplash API</i>	
<ul style="list-style-type: none">Developed a full-featured AI-powered image editing platform for creatives and marketers, offering seamless in-browser editing experiences.Implemented image manipulation tools like resizing, cropping, background removal, and background editing using Fabric.js and Unsplash integration.Integrated AI-based enhancement features (e.g., background remover, auto-enhance) via third-party APIs to streamline professional-grade editing.Added secure user authentication and session management using Clerk, supporting both email and OAuth login.	05/2025 – Present
E-commerce Website	

E-commerce Website	07/2023 – 09/2023
<i>Tech Stack: React.js, Bootstrap, Free API</i>	
<ul style="list-style-type: none">Built an e-commerce platform with features like product management.Implemented a user-friendly interface and optimized performance for seamless shopping experiences.Managed all application data in a database for enhanced scalability and functionality
