## Profile Summary

I am a Software Developer with 3+ years of experience in building and scaling web applications using **Node Js**, **Express Js**, **Python**, **Django**, and Django Rest Framework (**DRF**). Proficient in frontend technologies including **React**, **TypeScript**, **JavaScript**, **HTML**, and **CSS**. Strong expertise in database management with **MongoDB**, **PostgreSQL** and **MySQL**. Skilled at collaborating with cross-functional teams and clients to deliver high-quality, user-centric solutions.

## Skills

- **Backend Development:** Node Js, Express Js, Django, DRF
- **Languages:** Python, JavaScript
- **Database Management :** MySQL, PostgreSQL, MongoDB
- **Frontend Development:** React Js, TypeScript, HTML, CSS, Tailwind CSS, Bootstrap
- **Version Control:** Git, GitHub, Bitbucket
- **Tools & Technologies :** Redis, AWS, Docker, Bitbucket, Git, Pycharm, VS Code, MS Office, Chrome, Ubuntu, Webpack
- **Other Skills:** RESTful APIs, Moengage SDK, WebSockets, ORM, ODM

## Work Experience

### Software Developer

DLF team

ANAROCK | Client: DLF

Bengaluru, India

Jan 2022 - May 2023

- Designed & Developed the **DLF Admin Dashboard and member app** to manage and configure various modules such as **Events**, **Venues**, **Facilities**, **Food & Beverages**, and **Concierge Services** using **Node Js**, **Express Js**, **Python**, **Django** and **React**.
- Developed **RESTful APIs** using **Express Js**, **Django** and **DRF** to support dynamic booking, approval workflows, and data management across modules
- Enabled DLF admins to **create, manage, and update module data**, approving booking request, booking history tracking and settings for each module to ensure seamless integration with the member app.
- Facilitated an intuitive **member booking experience**, allowing DLF users to easily access, opt into, and book services from the available modules in the member app.
- Integrated **WebSocket-based real-time communication** using Django Channels for the Concierge module, enabling instant chat between members and admins for service requests and issue resolution.
- Built secure backend services to support **Paytm** and internal **ledger-based payment systems**, handling transaction logging, booking confirmation, and refund processing.
- Enabled **white-labeling** with customizable themes, empowering community-specific branding and personalized experiences across different communities in the member app.
- **Created role-based access control (RBAC)** in the **Node Js** backend to manage different privileges for admins, facility managers, and members, ensuring secure and structured data access.

**Software Developer**

AnP team

**Anarock (Payroll: JOBDOST)**

Bengaluru, India

April 2023–March 2025

- Developed and optimized the backend of the **Affiliate and Partners** project using **Node Js, Express Js, Python, Django** and **DRF**.
- Enhanced the **AnP dashboard UI** with **JavaScript, React** and **HTML/CSS** resulting in 20% increase in partners onboarding.
- Automated routine data processing with **Python** scripts, reducing manual effort by **40%** and improving efficiency.
- Built the entire backend for **Cab services** microservice using **Express Js** and **MongoDB**, efficiently integrating multiple cab providers.
- Optimized **MySQL** and **PostgreSQL** database queries, reducing response time by **15%**.
- Integrated **third-party APIs** and services into **Affiliate and Partners**, boosting service usage by **25%**.
- Developed backend of **Vendors Dashboard** enabling onboarded partners to see real time leads generation data.
- Integrated **Moengage** SDK to efficiently create PNs, Ads Campaign and better serve user requirements.
- Collaborated with developers, product managers, DevOps, and QA teams to ensure a seamless user experience.

**Python Developer Intern****Profile Run**

Bhopal, India

Sep 2020 - March 2021

- Developed automation scripts in **Python** to streamline data processing tasks, reducing manual efforts by **60%**.
- Automated repetitive tasks and workflows, enhancing operational efficiency and decreasing process time by **20%**.
- Identified and resolved critical bugs in the **Python** code-bases, improving product reliability and reduced existing bugs by **80%**.
- Integrated automation scripts with existing systems to ensure seamless data transfers, boosting overall system reliability.
- Leveraged web development skills to enhance **user interfaces** of existing projects.

**Full Stack Web Developer Intern****Tejlogistic**

Raipur, India

Oct 2021 - Dec 2021

- Developed the **Tejlogistic admin panel**, improving operational efficiency and increasing company revenue by 9%. • Built and implemented entire backend systems using **Node Js, Express Js** and **DTL** for seamless data management.
- Worked on the frontend using **HTML, CSS, JavaScript**, and **Bootstrap** for a responsive and user-friendly interface.

**Education**

- 
- **B.E. Electronics and Communication, IIIT-RGUKT RK Valley, Kadapa.**
  - **Intermediate, IIIT-RGUKT RK Valley, Kadapa.**
  - **School, ZPHS, Kambalapadu, Kurnool.**
