Professional Summary

Seasoned Front-End Developer with over 2 years of experience building high-performance, user-centric web applications using React.js, JavaScript (ES6+), Redux Toolkit, and Tailwind CSS. Proficient in RESTful API integration, state management, cross-browser optimization, and modern development methodologies. Strong collaborator with designers, back-end engineers, and product managers to deliver timely, quality-driven solutions.

Education

Ewing Christian College, Prayagraj   **2019 – 2022**
Bachelor of Computer Applications (BCA)   *Grade: 69.7%*

Maa Tripur Sundari Public School, Mirzapur U.P   **2017 – 2018**
Higher Secondary (Class XII)   *Grade: 57.0%*

Maa Tripur Sundari Public School, Mirzapur U.P   **2015 – 2016**
Secondary (Class X)   *Grade: 83.6%*

Skills

Languages: JavaScript (ES6+), HTML5, CSS3

Frameworks: React.js, Redux Toolkit, React Router DOM, Next.js, Tailwind CSS, Material UI

Tools: Git, GitHub, Firebase, VS Code, Netlify

Development: REST API Integration, Cross-Browser Optimization, Performance Debugging

Soft Skills: Problem Solving, Time Management, Team Collaboration

Professional Experience

Apcomp Infotech, Noida   **July 2023 – Present**
Front-End Developer

- Designed, developed, and maintained over 4 responsive and scalable web applications using React.js, Redux Toolkit, and Tailwind CSS.
- Implemented secure RESTful API integrations and authentication flows, resulting in improved session management and data security.
- Worked closely with back-end developers to troubleshoot API-related issues, streamline data handling, and optimize overall client-server interactions.
- Conducted thorough debugging and performance profiling to identify and resolve production issues, enhancing app reliability.

Key Projects

E-Commerce Web Platform
- Built a feature-rich e-commerce platform with product filtering, search, wishlist, and secure user authentication.
- Optimized UI performance through component splitting, lazy loading, and cross-browser compatibility.
- **Tech Stack:** React.js, Redux Toolkit, Tailwind CSS, React Router DOM, Git, GitHub.

HRMS Web Application
- Built a scalable and modular Human Resource Management System (HRMS) to manage employee data, track attendance, process payroll, and handle leave applications.
- Developed reusable and dynamic React components to improve code maintainability and simplify future feature enhancements.
- Integrated real-time updates and user-friendly UI features to enhance HR workflow efficiency and user experience.
- **Tech Stack:** React.js, Redux, Styled Components, Material UI, Firebase.

Terapage – Research Collaboration Platform
- Engineered a platform for research collaboration featuring project creation, proposal management, and real-time dashboards.
- Focused on performance optimization, an intuitive user experience, and responsive design.
- **Tech Stack:** React.js, Redux Toolkit, Tailwind CSS, React Router DOM.

Certifications

Namaste React Bootcamp, NamasteDev (Nov 2023)
