CAREER OBJECTIVE

- A highly skilled Angular developer with 2 years and 6 months of experience in building robust and scalable web applications. I am seeking a challenging position as an Angular developer to leverage my expertise in JavaScript, TypeScript, and Angular. My goal is to contribute to the development of cutting-edge web solutions by utilizing my strong problem-solving skills, teamwork abilities, and passion for writing clean and efficient code, ultimately delivering high-quality software products.

TECHNICAL SKILLS

- **Languages :** TypeScript, JavaScript, HTML, CSS5
- **Frameworks :** Angular, RxJS, Angular Material, Bootstrap, Tailwind
- **Tools :** Angular CLI, GitHub, Jira, ProofHub, BitBucket

PROJECTS

Digipay.guru | *Angular*

- Digipay.guru is a cutting-edge financial services platform providing a secure, transparent, instant, and convenient eWallet solution to banks and financial institutions globally. Utilizing Angular, Digipay.guru ensures a seamless user experience while managing complex financial transactions.

- The platform is designed to significantly reduce the time and effort associated with traditional paperwork by digitizing the entire process of adding, modifying, and releasing machines from the refinery. At each stage, our platform streamlines the permission workflow, eliminating the need for time-consuming senior approvals and ensuring efficient operations.

Prep Study | *Angular*

- Prep Study is a user-friendly platform designed for taking mock tests. Developed using Angular, it allows users to create and participate in practice exams effortlessly. The platform provides detailed analytics on individual and overall performance across all exams. Additionally, Prep Study features engaging game modules like daily challenges, available every day, and blind tests, available once a week, to make learning more interactive and enjoyable.

Yellow-soft | *Angular*

- The Yellow Taxi module offers on-demand services, including taxi booking, online medicine orders, and grocery shopping. Users can conveniently book taxis at their preferred times and order groceries and medicines through both the website and mobile application.

ArzaMed | *Angular*

- ArzaMed streamlines medical practice management by providing real-time access to patient medical records, medical agendas, and healthcare billing on any internet-connected device. This intuitive and accessible software enables doctors to organize their work efficiently, communicate with patients, and maintain control over their operations while ensuring GDPR compliance.

EXPERIENCE

Software Developer   February 2022 – July 2024
Digipay.guru   *Ahmedabad, India*

- **Front-End Development:** Developed interactive web applications using Angular, Tailwind, Bootstrap, and HTML/CSS, delivering responsive and user-friendly interfaces.
- **Form Validation:** Implemented form validations in Reactive Forms, ensuring data consistency and preventing data entry errors.
- **Design and Code Management:** Directed design recommendations, contributing to the development of new code and optimizing the reuse of existing code.
