## PROFESSIONAL SUMMARY

Innovative and results-driven Software Engineer with **3+ years** of experience specializing in back-end development using **Node.js** and AWS Serverless architecture. Proven ability to design, develop, and deploy scalable applications using **AWS services** (Lambda, DynamoDB, S3, API Gateway, etc.). Adept at collaborating in Agile teams, implementing RESTful APIs, and ensuring high-performance solutions aligned with business goals. Seeking opportunities to leverage technical skills, analytical thinking, and a passion for emerging technologies to contribute to organizational growth.

---

## WORK EXPERIENCE

### Software Engineer
*KiwiTech* | April 2024 – Present

- Developed and implemented new software features to improve application performance and reliability.
- Collaborated with cross-functional teams to troubleshoot and resolve software issues, ensuring smooth functionality and quality standards.
- Contributed to the successful delivery of major software projects by optimizing code and integrating AWS services.

### Associate Software Engineer
*KiwiTech* | September 2022 – March 2024

- Designed and developed robust software applications using Node.js and AWS services (Lambda, DynamoDB, etc.).
- Mentored junior developers, streamlining the onboarding process and enhancing team efficiency.
- Collaborated with cross-functional teams to identify, debug, and resolve complex software issues, improving overall system performance.

### Trainee Software Engineer
*KiwiTech* | March 2022 – August 2022

- Worked on live projects as a web developer using Node.js, Express, and MongoDB.
- Developed high-performance programs across various frameworks, contributing to the timely delivery of projects.

---

# PROJECT EXPERIENCE

### TopFans

- Acted as the integral back-end developer for a dynamic social media platform using Node.js.
- Integrated diverse AWS services including DynamoDB, Lambda, API Gateway, SQS, CloudWatch, Cognito, and S3 to enhance scalability, security, and performance.
- Collaborated with cross-functional teams to deliver feature-rich solutions while maintaining high code quality and optimized performance.

### Pursuit Alert

- Played a key role in developing a vehicle tracking platform using Node.js, Express, Hasura, GraphQL, and PostgreSQL.
- Integrated AWS Lambda for serverless computing and automated database event triggers, improving operational efficiency.
- Implemented real-time data updates and CRUD operations via Hasura GraphQL, ensuring a seamless user experience.
- Employed Agile methodologies, working closely with onshore and offshore teams, and utilizing Jira for project management.

---

# EDUCATION

### B.Tech in Computer Engineering
*Eshan College of Engineering, Farah, Mathura* | 2022

- Grade: 78%

### Higher Secondary (12th Grade)
*Uttar Pradesh* | 2017

- Grade: 70-74.9%

### Secondary School (10th Grade)
*Uttar Pradesh* | 2015

- Grade: 80-84.9%

---

# TECHNICAL SKILLS

- **Programming Languages:** Node.js, JavaScript (ES6+)
- **Frameworks & Libraries:** Express.js, GraphQL, Apollo GraphQL, Hasura
- **AWS Services:** AWS Lambda, API Gateway, DynamoDB, S3, Cognito, CloudWatch, SQS, CodePipeline, ElasticCache (Redis)
- **Databases:** PostgreSQL, MongoDB, DynamoDB, Redis, SQL
- **Tools & Methodologies:** Docker, Terraform, Jira, Agile (Scrum), Git, CI/CD pipelines
- **Additional Technologies:** Microservices, IoT integration, Elastic Search

---

## HONORS & AWARDS

- Recognized as a nominee for Employee of the Month and received spot recognition twice for outstanding contributions.
- Consistently earned a perfect 5 out of 5 client rating, reflecting excellence in project delivery and client satisfaction.

## LICENSES & CERTIFICATIONS

- **Web Development Certification** – Issued by Udemy

## KEY COMPETENCIES

- **Backend Development:** Designing and developing scalable RESTful APIs and microservices using Node.js and Express.js.
- **Cloud Architecture:** Expertise in leveraging AWS Serverless architecture to build resilient, high-performance applications.
- **Agile Collaboration:** Proven track record of working in Agile environments, participating in biweekly sprints and daily scrum meetings.
- **Mentorship & Team Collaboration:** Experience in mentoring junior developers and working effectively in cross-functional teams.
- **Problem Solving:** Strong analytical skills with a focus on troubleshooting, debugging, and enhancing software performance.

## LANGUAGES

- **English:** Fluent
- **Hindi:** Fluent
