PROFESSIONAL SUMMARY

- Full Stack Web Developer with expertise in the MERN stack, along with hands-on experience in HTMX, Tailwind CSS, Alpine.js, and Golang. Skilled in designing and developing responsive, user- friendly web applications and writing scalable, maintainable code.
- Proficient in building robust backend systems using Payload CMS, implementing secure authentication with JWT tokens, and enhancing efficiency through AI-powered automation. Experienced in deploying solutions on AWS and Vercel.
- Passionate about contributing to innovative projects in challenging environments, with a focus on continuous learning and professional growth.

EXPERIENCE

Software Development Engineer
Auditcue

01/2025 – 04/2025
Chennai

- Designed and developed fully functional web pages, ensuring responsiveness, performance optimization, and a seamless user experience.
- Implemented a rich text editor, enhancing content customization and user interaction.
- Developed a custom product component, improving functionality, reusability, and efficiency.
- Adopted clean coding practices, ensuring a maintainable, scalable, and efficient codebase.
- Focused on modular and reusable development, streamlining workflows and improving project scalability.

MERN Stack Developer
Evfy

11/2023 – 11/2024
Gurugram

- Built user interfaces and backend services as a full-stack developer.
- Wrote testable, readable, and scalable code for efficient project maintenance.
- Developed backend systems using Payload CMS.
- Designed multiple responsive and user-friendly web pages.
- Implemented authentication service using JWT tokens for secure user validation.
- Automated form-filling processes with Gemini AI to enhance efficiency.
- Deployed backend on AWS and frontend on Vercel.

Engineering Intern
Auditcue

05/2023 – 08/2023
Chennai

- acquired knowledge in HTMX, Tailwind CSS, Alpine.js, and Golang.
- successfully designed various web pages.
- dedicated effort to mastering clean coding practices, resulting in more maintainable and understandable codebase.

Full Stack Web Developer
Zestwings

09/2020 – 04/2022
Hyderabad

- Designed and developed a Inventory Management System from scratch to manage stock levels, suppliers, and purchase orders.
- Implemented CRUD operations for products, categories, and vendors with role-based access control (Admin, Manager, Staff).
- Integrated real-time stock tracking with automatic low-stock alerts and reorder logic.
- Built interactive dashboards and inventory analytics with data visualizations for stock movement and value trends.
- Ensured data integrity with MongoDB and added features like audit logs and user activity tracking.

EDUCATION BACKGROUND

Full Stack Web Development
Masai School

05/2022 – 02/2023
Bengaluru

Bachelors of Technology (Electrical and Electronics Engineering)
REVA University

08/2016 – 05/2019
Bengaluru

PROJECTS

Gym.com 🔗

Gym.com with our creativity along with frontend and backend integration & its Fully Responsive e- commerce web application
A collaborative project built by a team of 5 members executed in 5 days
Features: Landing Page, Product page, Admin Page, Footer, Header, Cart Page, Wish List, Authentication, JWT, Payment Gateway, Password Hashing, Email service
Tech Stack: React, Chakra-UI, NodeJS, Express, MongoDB, Redux
Areas of responsibility
- Built Products Page
- Built Single Product Page
- Implemented Cart Functionality
- Developed Login, Sign Up and Reset Password Pages

Licious 🔗

Licious is an e-commerce website through which users can purchase different kinds of cold cuts such as meat and fish
This project was individually built in days
- **Features:** Landing Page, Product Cards, Carousel Functionality, Footer, Header
- **Tech Stack:** HTML, CSS, JavaScript

TECHNICAL SKILLS

- HTML
- CSS
- JavaScript
- ReactJS
- Redux
- NodeJS
- ExpressJs
- MongoDB
- NextJs
- TypeScript
- Tailwind CSS
- HTMX
- Alpine.js
- Chakra-UI
- Payload CMS
- Golang
- Zustand
- Socket.io
- AWS S3 bucket
- CI/CD
