**Summary** — I am a self-driven, highly motivated, and passionate fresher seeking an opportunity to work in a challenging organization. My goal is to leverage my skills and knowledge to contribute to the company's success while growing both professionally and personally.

## Skills

**Frontend:** React.js, Tailwind CSS, Next.js, React Hooks, Redux
**Backend:** JavaScript, Node js, Express js, Python, Java, Socket.io, MongoDB
**DevOps:** GitHub, Bitbucket, AWS, Docker, Ansible, Jenkins, CI/CD Pipelines
**Soft Skills:** Team Collaboration, Leadership, Problem Solving, Time Management

## Experience

**EOXS**                                                                    **Mar 2025 – Present**
*Software Developer Intern*                                                  *Remote, Toronto*
– Gained hands-on experience working with ERP systems in the manufacturing and textile domains.
– Contributed to backend feature development using Python (Flask) and database logic in Postgres.
– Built and improved frontend UI components using XML in Odoo, focusing on user experience.
– Collaborated on version control and code reviews using Bitbucket in a structured team workflow.
– Translated business requirements into modular ERP features across procurement and production.
– Participated in sprint planning, documentation, and product testing with a strong ownership mindset.

**The Entrepreneurship Network**                                            **Jan 2025 – Mar**
*React js. dev*                                                             *Remote, India*
– Developed and maintained responsive web applications using React.js and TailwindCSS.
– Implemented interactive UI components, improving user engagement and site performance.
– Collaborated with a team to optimize frontend performance and ensure cross-browser compatibility.
– Gained hands-on experience in version control with Git and deployment using CI/CD pipelines.

## Projects

**Real-TimeChat Application**
– Developed a real-time chat app using MERN stack and Socket.io for instant messaging.
– Implemented JWT-based authentication, online user status, and global state management with Zustand.
– Designed a responsive UI using TailwindCSS and Daisy UI.

**Employee Management System**
– Developed a fully functional website for managing employee data, featuring a clean and intuitive user interface (UI).
– Utilized localStorage for data persistence, enabling seamless storage and retrieval of employee information without a backend database.
– Implemented CRUD operations (Create, Read, Update, Delete) to manage employee records efficiently.
– Designed a responsive and user-friendly interface to ensure accessibility across devices.

**Animated Website(Web Technologies)**
– Designed and developed an eye-catching animated website using CSS and JavaScript to deliver a dynamic and interactive user experience.
– Implemented responsive design to ensure compatibility across all screen sizes and devices and Created a smooth, user-friendly interface with intuitive navigation for enhanced usability.
– Built with scalability in mind, making it fully customizable and easy to expand for future updates.

## Education

**Post Graduation(MCA)**
*Chandigarh University, Mohali - AUG 2023 TO MAY 2025*                       *cgpa-7.09*

## Certifications

– **JavaScript Certification** [Issued by Infosys]                          *Dec 2023*
– **React.js Certification** [Issued by Infosys]                            *Feb 2024*
– **AWS Fundamentals** [Issued by Coursera]                                 *Aug 2024*

## Achievements

– **E-MEDHABRUTI - PG Merit Scholarship** [Government of Odisha]            *2023*
