FRONTEND DEVELOPER

Frontend Developer with 4 years of hands-on experience in delivering high-quality, responsive web and mobile applications using React.js and React Native. Adept at building intuitive user interfaces and ensuring seamless user experiences across both Android and iOS platforms. Strong proficiency in JavaScript, RESTful APIs, and modern UI/UX design principles. Known for writing clean, maintainable code and thriving in fast-paced, agile team environments. Committed to continuous learning and adopting the latest development best practices to drive product excellence and user satisfaction.

PROFESSIONAL EXPERIENCE

MicroSpark Software Solutions Pvt Ltd
FRONTEND DEVELOPER   **September 2021 - Present**

As a Frontend Developer at Microspark Solutions Pvt Ltd, Hyderabad, since September 2021, I design and develop responsive web and Android applications using React.js and React Native. My role involves crafting clean, intuitive user interfaces, optimizing performance, and ensuring a smooth user experience. I actively collaborate with cross-functional teams, adhere to development best practices, and support junior developers through code reviews and mentorship.

My Golden Homes

As a Frontend Developer – Microspark Solutions Led frontend development using React.js for "My Golden Homes," a dynamic real estate platform. Designed and implemented responsive user interfaces with advanced search filters, delivering a smooth and intuitive user experience across all devices. Integrated RESTful APIs to enable real-time data updates and secure user authentication. Focused on performance optimization, reducing page load times, and enhancing usability through user feedback. These efforts significantly improved user engagement, satisfaction, and overall platform reliability..

Kirana World

As a Frontend Developer at Microspark Solutions Pvt Ltd, Contributed to the development of KiranaWorld, a grocery shopping mobile application built with React Js and React Native for Android and Web. Played a key role in implementing essential features including product search, category filtering, and a smooth cart experience to improve user convenience. Integrated RESTful APIs to manage dynamic product data, real-time updates, and user interactions. Focused on delivering a clean, responsive, and intuitive interface that ensured consistent performance and usability across a wide range of devices.

Saloon Treat

At Microspark Solutions Pvt Ltd, Worked on SaloonTreat, a React Native mobile application for Android designed to simplify salon appointment booking and management for both customers and service providers. Developed key features such as appointment scheduling, service discovery, and user account management. Focused on delivering a smooth, intuitive, and efficient user experience through thoughtful UI design, responsive layouts, and performance optimization. Contributed to creating a reliable, user-centric platform that enhanced booking efficiency and user engagement.
