SUMMARY

Frontend Developer with over 3 years of experience in building scalable web applications using Angular and other JavaScript-based frameworks. Proficient in UI/UX optimization, API integration, and testing frameworks. Passionate about delivering high-performance applications and staying updated with the latest technologies.

SKILLS & ABILITIES

Languages	JavaScript, Typescript
Framework & Libraries	Angular, React, Next.js, NgRx, RxJS, Angular Material, PrimeNG
Testing Frameworks	Jasmine and Karma
APIs	RESTful API, OAuth
Security	Dependency Injection (DI) Security, JWT, Secure Coding, CSRF Protection
Version Control & Tools	Git-Lab, GitHub, JIRA, Postman, Visual Studio Code, Web-pack
Internal Technologies	JSON, AJAX, jQuery, HTML, HTML5, CSS, SCSS, Bootstrap, Tailwind
Database & Deployment	MySQL, Docker
Other	SSR, CI/CD Pipelines, Agile Methodologies, Cytoscape.js

WORK EXPERIENCE

Frontend Developer
Somnetics (Som Imaging Informatics Pvt. Ltd.), Kolkata
September 2024 – April 2025

Assistant Software Engineer
Mango IT Solutions, Indore
February 2022 – July 2024

JOB ROLE

- Developed and maintained scalable applications using Angular & Next.js, enhancing UI/UX and increasing user retention by 25%.

- Designed and implemented interactive data visualizations using Cytoscape.js for enterprise applications.

- Integrated and optimized RESTful APIs, improving data processing speed by 30%.

- Conducted unit testing with Jasmine & Karma, ensuring 95% test coverage and delivering bug-free applications.

- Worked on performance optimization, reducing load times and enhancing accessibility.

- Developed and maintained secure authentication mechanisms using OAuth and JWT.

- Led and collaborated with cross-functional teams to improve application performance, code quality, and scalability.

- Utilized Docker and CI/CD pipelines for deployment.

PROJECT EXPERIENCE

DetaFlow – Enterprise Functional Reference Architecture
Duration: 8 months

Technologies Used: Angular, JavaScript, Cytoscape.js, HTML, SCSS, Bootstrap, Jasmine, Karma

Roles and Responsibilities:

- Developed interactive visual graphs using Cytoscape.js to depict enterprise data structures.

- Built and optimized UI components using Angular, HTML, SCSS, and Bootstrap.

- Implemented custom graph navigation features allowing users to explore relationships between organizational components dynamically.

- Designed and implemented unit test cases using Jasmine and Karma to ensure application stability.

- Integrated RESTful APIs for seamless data retrieval and interaction.

Unicorn Mobility
Duration: 6 months

Technologies Used: Angular, JavaScript, jQuery, HTML, CSS, Google Maps API

Roles and Responsibilities:

- Developed and optimized UI components using Angular and JavaScript.

- Integrated Google Maps API for real-time location tracking.

- Designed and implemented data visualization components for analytics dashboards.

- Enhanced performance and responsiveness of web pages to improve user engagement.

Tineon AG *Duration: 1.5 years*

Technologies Used: Angular, JavaScript, jQuery, HTML, CSS, Bootstrap, Docker

Roles and Responsibilities:

- Designed and implemented responsive UI components across all applications.

- Developed key features such as real-time synchronization, event management modules, and interactive dashboards.

- Integrated Docker for containerization and seamless deployment.

- Collaborated with designers, backend developers, and project managers to ensure high-quality deliverables.

EDUCATION

Bachelor of Technology in Computer Science

Rajiv Gandhi Technical University

Graduated: May 2022
