Jagadeesh Katthula

UI UX Designer

About Me

UI/UX Designer with a strong foundation built through career progression at Symplocos Solutions. Skilled in creating responsive user-centered design and user-friendly web and mobile interfaces using Figma and Adobe Creative Suite. Interaction Design experienced in the end-to-end design process including user research, wireframing, prototyping, and visual design. Focused on User Experience and delivering intuitive digital experiences

Experience

- **Symplocos solutions**   March 2022 to August 2022

  UI UX Intern

  - Assisted in designing wireframes and low-fidelity prototypes while supporting senior designers on real-time projects.
  - Participated in user research and usability testing to gather insights for improving design decisions and ensuring the design review process was effective.
  - Gained hands-on experience with Figma and Adobe by creating UI components and organizing design files for team collaboration.

- **Symplocos solutions**   August 2022 to August 2024

  Junior UI UX Designer

  Monglee Learning Platform

  - Conducted user research through surveys and feedback from students, parents, and educators to identify platform pain points
  - Designed user journeys, wireframes, and interactive Figma prototypes for key features like course browsing, quizzes, and progress tracking
  - Built consistent UI components using reusable patterns and accessibility-focused design for a young learning audience.
  - Collaborated with developers and content strategists in Agile sprints, addressing feedback and ensuring accurate implementation of the design system.

- **Symplocos solutions**   August 2024 to Present

  Mid-level UI UX Designer

  Employee Onboarding Portal

  - Designing an intuitive onboarding portal with dashboards for progress tracking, document upload, and task management
  - Creating wireframes, high-fidelity mockups, and interactive prototypes in Figma for desktop and mobile views
  - Participating in meetings with HR and IT teams to align user flows with organizational onboarding processes and compliance needs.
  - Conducting ongoing usability testing, and addressing stakeholder feedback while ensuring responsive, accessible design following WCAG.
