Ankit Dubey
React.js | MERN Stack Developer

B-141, Greater Noida, UP | +91-7291949449 |dubeyankitsarar142@gmail.com |LinkedIn: linkedin.com/in/ankit-dubey-15872a165

Software Engineer with 2.5+ years of experience in building responsive, scalable web and cross-platform applications using React.js, Node.js, and the MERN stack. Proven expertise in modern front-end development, RESTful API integration, and performance optimization. Passionate about clean code, UI/UX best practices, and Agile collaboration to deliver high-quality, user-centric solutions.

Experience

Software Developer| MaxRidge| Noida |*Dec 2024– May 2025*
Built real-time UI components using React.js and Tailwind CSS, integrating APIs for AI-driven vehicle in sights.
Collaborated with backend teams to integrate Node.js and Express.js services, implementing Firebase for authentication and data synchronization.
Enhanced security using encryption and ensured mobile responsiveness across devices.
Convert web applications to cross-platform mobile apps using Capacitor.js (iOS/Android).
Conducted code reviews and partnered with designers to improve UX/UI workflows.

Software Developer | Alphamate Technologies |Noida |*Oct 2022–Sep 2024*
Developed reusable, modular React.js components for scalable front-end architecture.
Integrated RESTful APIs using Node.js and Express.js for seamless frontend-backend communication. Improved performance using lazy loading, React.memo, and code splitting, boosting
Enhance performance by 30% while developing mobile-first, responsive apps with Bootstrap and Tailwind CSS.
Managed source code using SVN, contributing to collaborative workflows.
Participate in Agile ceremonies (stand-upspring planning, retrospectives) for iterative development.
Collaborated with/UX teams to develop accessible, user-centric interfaces**.**

Skills
React.js (Hooks, Context API, React.memo) | Redux Toolkit | JavaScript (ES6+) | TypeScript |
Node.js | Express.js |REST APIs | WebSocket | Next.js| microservices | My SQL| Redis |
MongoDB | Tailwind CSS |Material-UI | Bootstrap | Git |Postman |Webpack |Vite | Vercel
|Firebase| Docker |

Project

Car Advisor.Ai – MaxRidge.Ai | Dec 2024 - May 2025| driven platform delivering personalized car recommendations by analyzing user habits and real-time data, leveraging React.js and Capacitor for seamless cross-platform UX; integrated a Node.js and Express backend to handle API requests, real-time data processing, and AI-driven recommendation logic**.**

MarinePALS – Alphamate Technologies Pvt. Ltd. | Oct 2022 - Sep 2024| Worked as a developer to create a training and micro-learning platform for maritime professionals using React.js and Node.js Express.js. Contributed to building an interactive, scalable solution aimed at enhancing learning experiences within the maritime industry.

Education
Bachelor of Engineering in Electronics and Communication Engineering |Vikram University, Ujjain (M.P)
